WHAT TEACHERS LOVE ABOUT THIS RESOURCE!

"This included a lot of amazing resources for fast/slow changes to the earth. My students loved these."

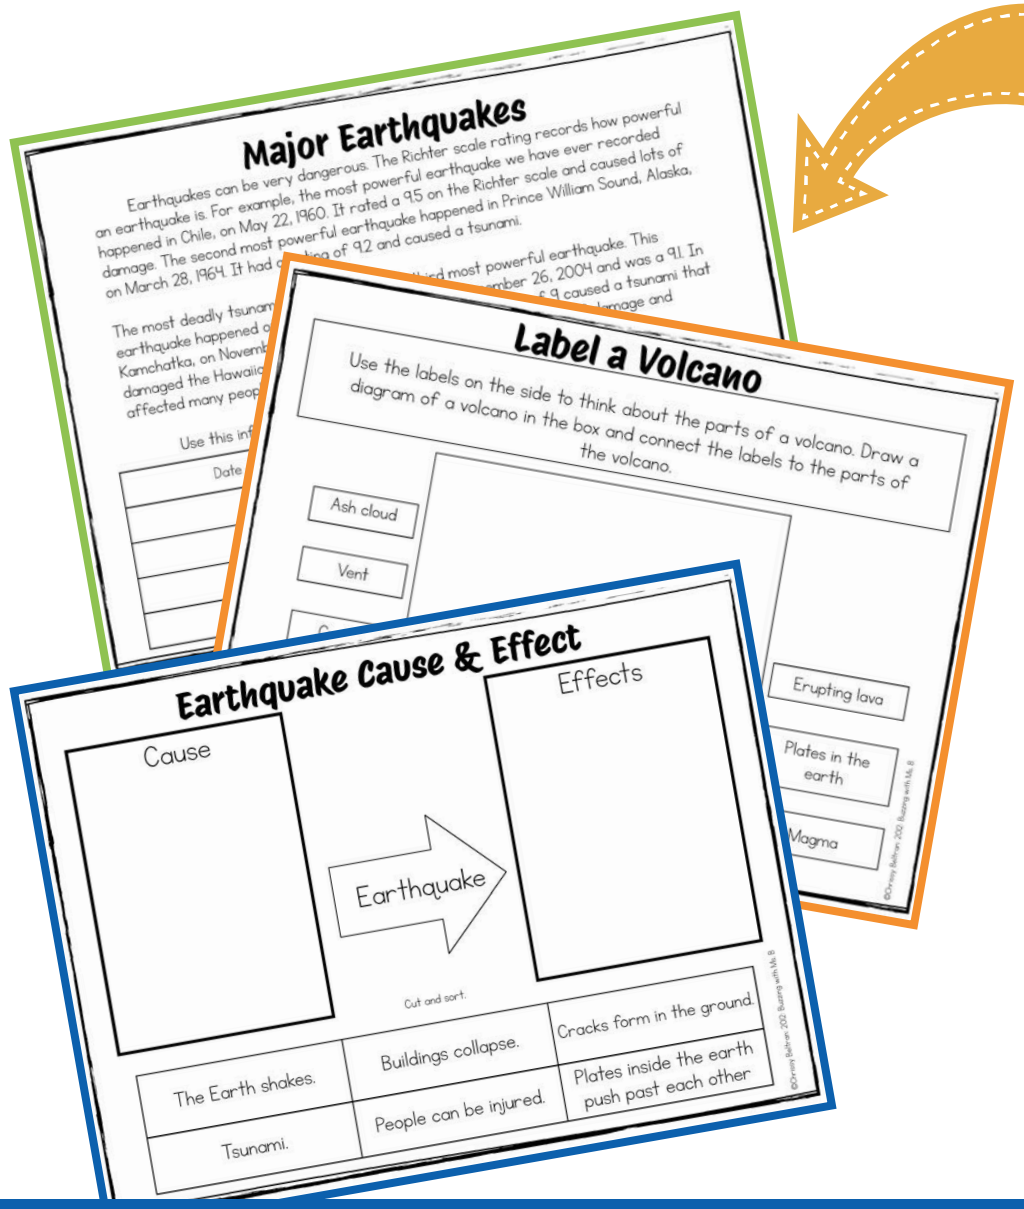

"My students loved this resource. It helped to provide remediation in a fun and engaging manner for my struggling learners. No prep involved."

"This resource was perfect to supplement my third grade unit about natural disasters. I especially liked the graphic organizers that helped my students organize information and distinguish between the various types of disasters."

"Very intense look into the vocabulary that goes with the unit. Students enjoyed the interactive pages."

BUZZING with Ms. B

NO PREP ACTIVITIES FOR DISASTERS

- ✓Use your current curriculum
- ✓Add on these handouts and activities
- ✓Practice science vocabulary
- ✓Identify causes & effects

Teacher feedback:
"These activities perfectly supplement our natural disaster study with our ELA curriculum. The students enjoyed completing the activities. Thank you"

PERFECT TO EXTEND YOUR SCIENCE TEXTBOOK!

WHAT IS INCLUDED?

- ✓Diagrams
- ✓Cause-effect
- ✓Cut & Paste
- ✓Vocabulary Cards
- ✓Folded Booklets
- ✓Writing Extension

BUZZING with Ms. B

THESE HANDOUTS WILL HELP YOU...

- ✓Teach scientific vocabulary
- ✓Practice reading skills in science
- ✓Write about a scientific topic
- ✓Teach an interdisciplinary unit about disasters
- ✓Teach engaging lessons without a lot of preparation

Types of Tectonic Plate Boundaries

Type	What do the plates do?	Effects
Divergent		
Convergent		
Transform		

Types of Volcanoes

Type	Characteristics	Picture
Shield		
Cindercone		
Composite or Stratovolcano
