WHAT TEACHERS ARE SAYING

"So easy to use and written in student friendly terms. It took the guess work out of rephrasing the TEKS for myself."

"This resource is amazing!! I have always struggled with my ELAR word wall because most of the vocab is in multiple units and is used continuously. I have posters with the vocab and I move clothespins to the words we are focusing on. They are always visible to my students and they really do use them and refer back to them. This is an excellent resource!"
