Angles: Goldilocks! What are you doing in our house in Geometry Wood?
Narrator 4: Goldilocks slowly stood up and reached inside her coat.
Narrator 5: She opened up her hand and showed the three Angles... her Angle Investigator Badge!
Goldilocks: I'm not Goldilocks. That's just my undercover name. I'm actually an Angle Investigator and this is what I learned about you Angles while I was in your house. You, Obtuse, are too big. You, Acute, are too small. But you, Right, are just right!
Narrator 1: The three Angles stared at each other in surprise.
Narrator 2: Then they all had a good laugh
Narrator 3: and went out for pints of kool-aid.
Narrator 4: And that's the story of Goldilocks and the Three Angles.
Narrator 5: Mostly.
Narrator 6: Join us again next week for the story of Parallela and her wicked Stepsisters, Perpendicular and Intersecting.
