WHAT TEACHERS ARE SAYING ABOUT THIS RESOURCE:

"My students loved using this review for STAAR Writing test. We even got featured in the district newsletter! I brought a tent and other props from home, and it was so much fun. I also created Google Forms where students could enter their answers to make grading easy."

"We had a fun day changing classes every 30 minutes the Monday before the Writing STAAR. The students loved this so much more than staying put in a classroom to review."

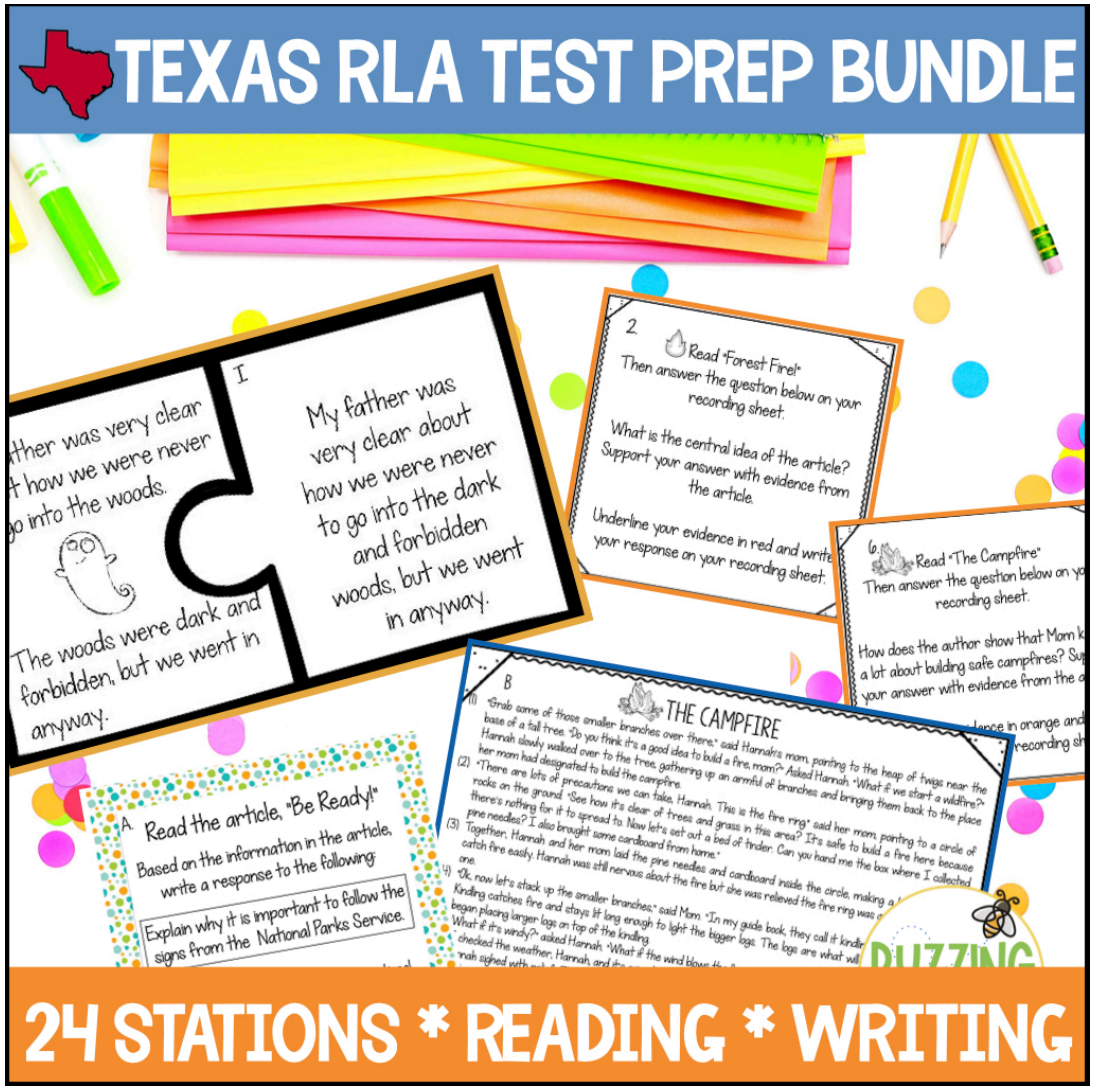

"We transformed our classroom into a camping theme for the week leading up to state testing and I used this resource for the week. The only negative to this resource was that I had to create a digital version for my online students since there was not an online component. It was a great review though and we had a LOT of fun!!! We used some activities as whole group lessons, some small group, some partner."

"This was easy to put together and it was a great way to review before the state test! We used it over the course of a week and did several activities a day."
